PRO Professional Academy

Digital Talent Scholarship 2022

Convolution Neural Network Pt 2

Lead a sprint through the Associate Machine Learning Track

KOMINFO digitalent

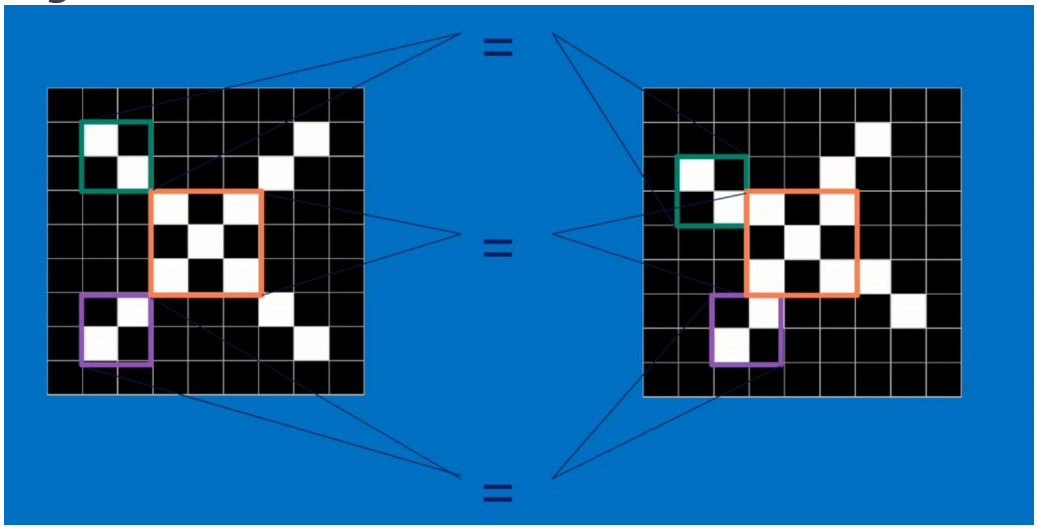
Agenda

- Mengenal CNN lebih dalam
- Transfer Learning
- Coding Sessions

KOMINFO digitalent

Are your students ML-ready?

Cara Kerja CNN



Fitur Maps

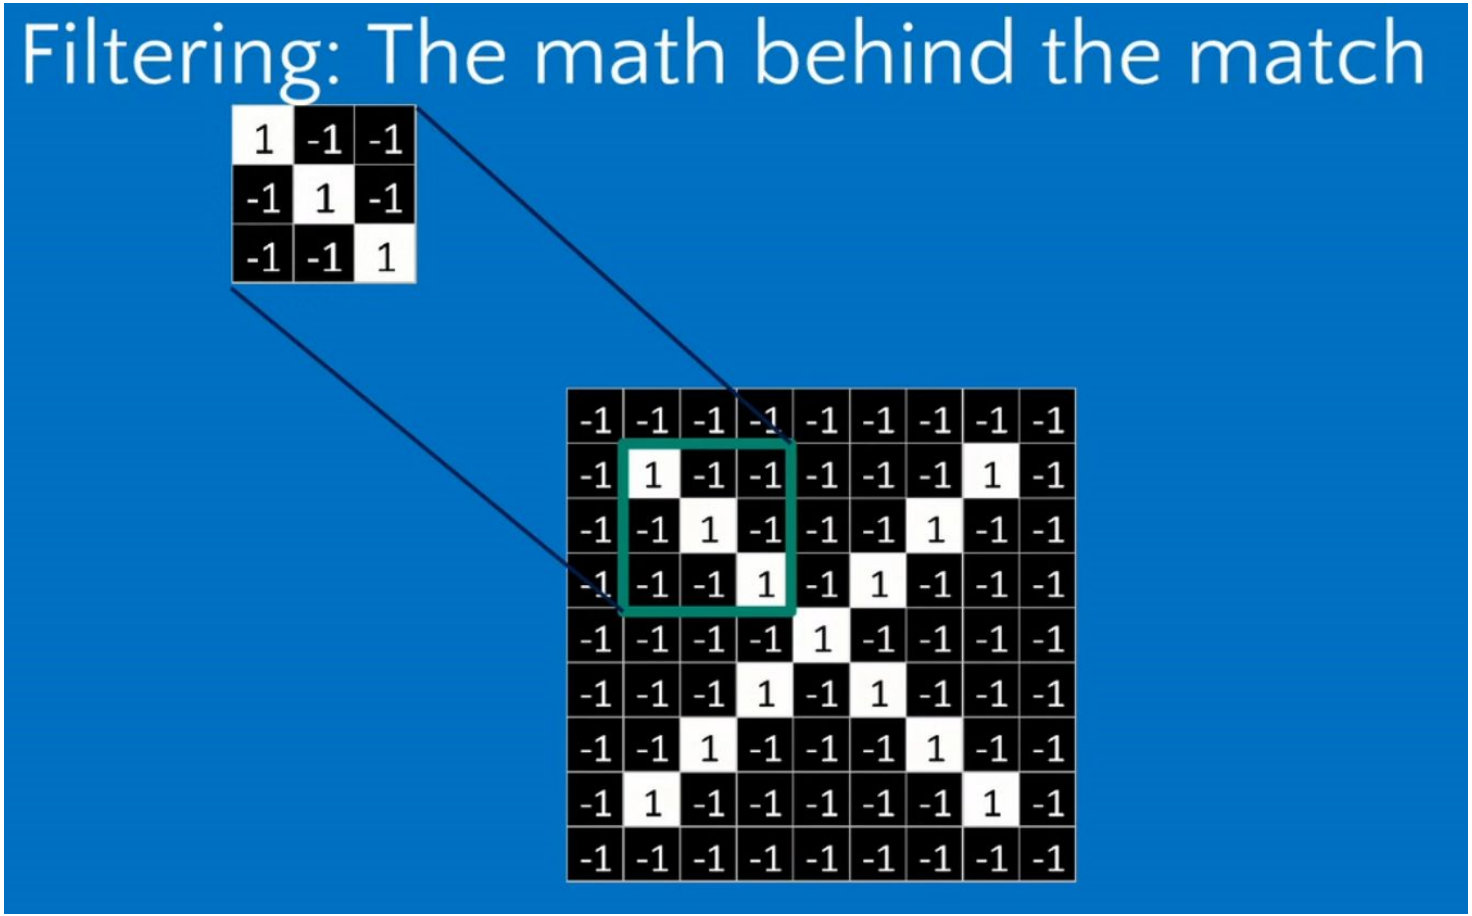
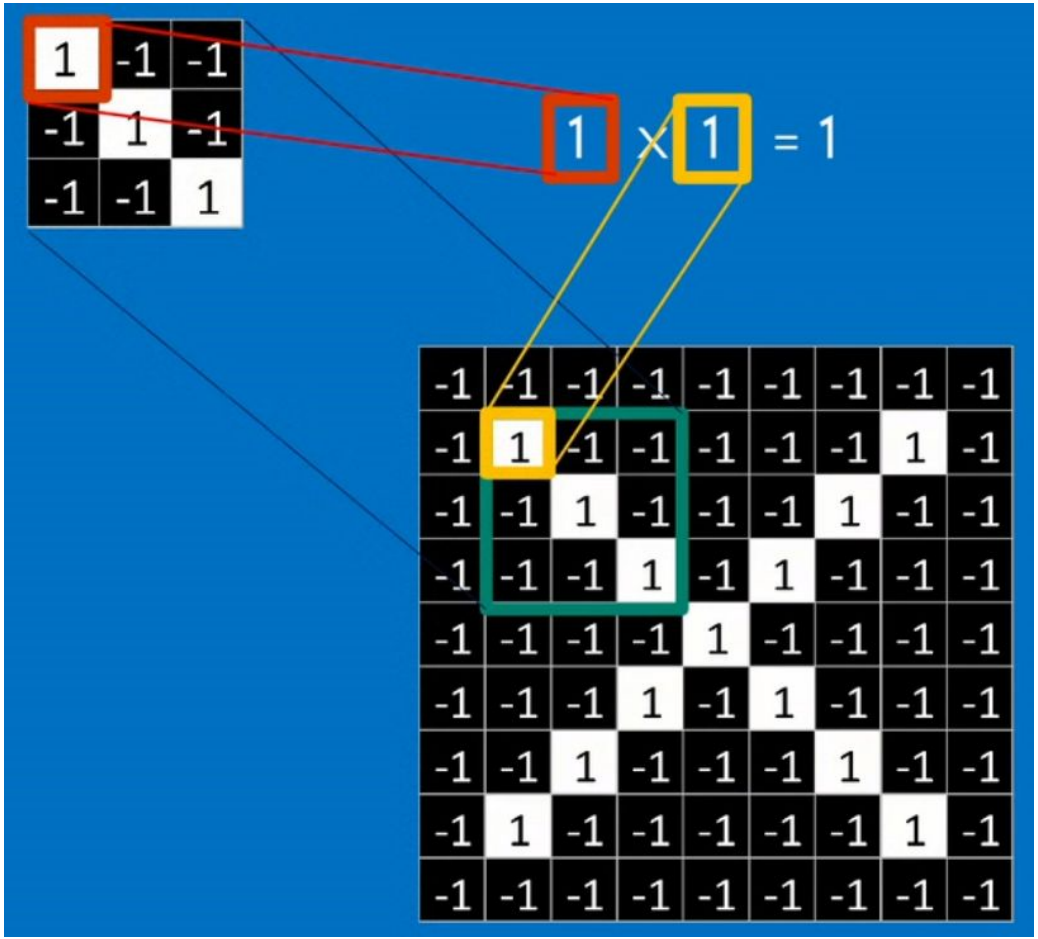
Filtering: The math behind the match



Cara Filtering

1. Sejajarkan Fitur dan patch dari gambar
2. Tambah tiap piksel gambar dengan koresponding fitur piksel
3. Totalkan
4. Bagikan dengan total angka dari piksel di dalam fitur



1 -1 -1
-1 1 -1
-1 -1 1
1 × 1 = 1

KOMINFO digitalent

What is Transfer Learning?

KOMINFO digitalent

Sebuah pemanfaatan pengetahuan yang diperoleh saat memecahkan sebuah masalah dan kemudian diterapkan ke masalah yang berbeda namun masih memiliki keterkaitan.
